Subject: Scarsdale Outdoor Pool Membership Rates for the Coming Summer

CAUTION: External sender.

To All ;

We are very concerned about the proposed 30 % increase in Scarsdale resident POOL PERMIT RATES for the coming Summer Season and we totally oppose such an increase.

Pool membership has been down over recent years but raising rates is NOT the way to increase membership. We need to hold on to our current membership !!!

We need a marketing program for new membership from our surrounding communities particularly .Garth Road at a reasonable rate no more than 2X the resident rate.

We also should offer membership to the employees of the Village and the School system at rates up to 2X the resident rate maybe less .

We could easily do an email survey of our employees for their interest in pool membership at certain rates .

Please DO NOT Raise POOL RATES by 30 %. That would destroy POOL MEMBERSHIP during CORVID .

We are POOL MEMBERS for 40 YEARS

Bob and Terri Harrison
