Subject: To the Mayor and Village Board re Freightway Redevelopment

Congratulations for the excellent comprehensive research and community out reach you conducted for the improvement of the parking structure and open lots on Freightway.

After reading the full report and community responses I write to add my opinion.

This clearly is a once in a lifetime opportunity to make a significant and major improvement in the heart of the community. My vote is enthusiastically in favor of option IV. Option III is the next best alternative but it would not make either the positive impact on the downtown area nor would it set an example of creative development that option IV does.

Scarsdale was a leader in adopting a local zoning ordinance. Now let us be a leader in creating a model business/transportation district that anticipates not only future needs but does so with the highest environmental and aesthetic standards.
