Bruce,

Thank you for your email.

Prior Village Boards have reviewed this matter and have determined to wait for action on the part of the county, which I believe is reviewing this matter.

As you know, Scarsdale prides itself on its environmental stewardship, as evidenced by its leadership role in food scrap recycling and our successful rollout of an LED street-lighting program, among others.

We will continue to monitor progress of the carry-out bag law at the county level as we are anxious to begin this program as it is adopted on a county-wide basis.

Best,

Marc

Dear Mayor Samwick:

Maybe it is about time to follow in the footsteps of our neighbor and enact the Scarsdale Carry-Out Bag Law. We collect food waste, why not enact a law on the plastic bags when we purchase that food.

Let's protect our environment so there is one for future generations.

Bruce M Freyer
