

**League of Women Voters of Scarsdale  
Board of Directors  
Statement Condemning Racism and Supporting the AAPI Community  
March 23, 2021**

The League of Women Voters of Scarsdale (LWVS) believes in individual liberties, civil rights, human rights, and voting rights writ large; we defend democracy and oppose all threats to constitutional rights. The LWVS is an organization that advocates against systemic racism and racist violence and we are committed, in both values and practice, to diversity, equity and inclusion.

The League of Women Voters of Scarsdale, Board of Directors (League Board) joins our sister Leagues, including the League of Women Voters of the United States (LWVUS) and the League of Women Voters of Georgia, in condemning the anti-Asian American Pacific Islander (AAPI) racism that has long plagued our country and has increased during the COVID-19 pandemic.<sup>1</sup> We grieve the senseless loss of eight lives, including six women of Asian descent, this past week to hate-driven gun violence in Georgia.

As stated by LWVUS: “The League is committed to listening to and amplifying AAPI voices and educating ourselves on the historic and ongoing systemic racism that plagues this country so we can be better allies.” Our own community is not immune to anti-AAPI racism, and we must remain vigilant in our stand against racism, violence and hate in all its forms. We fully support our AAPI community members.

The League Board also condemns all forms of violence against women.

The League Board denounces all forms of hate and violence in both actions and words against people of any ethnicity, religion, nationality, race, gender identity or expression, culture, or sexuality.

We urge our members to stand united with us, and call on our elected officials at all levels of government to demonstrate their commitment to keep all communities safe. The LWVUS states: “There can be no liberty in the face of racist and xenophobic violence.” We are only safe from racism, sexism and bigotry if we are all protected by the law and by our fellow citizens.
