Hello Aggy,

I am responding on behalf of the Board. Thank you for taking the time to reach out to us with your position and thoughts on the proposed Butler Track and Field Lights. A second turf field near the pool complex would be a village responsibility, so I have copied Mayor Marc Samwick on this response.

The Board will be considering a draft usage regulation and draft Memorandum of Understanding between the Board and the Maroon and White Organization tonight and at our June 10th meeting. There have been presentations/updates on the proposal and related initiatives at most of the Board meetings over the past months which can be found by looking at Board agendas from this [webpage](#). Here is a [link](#) to the last presentation on April 29.

We appreciate your communication and your input. Each Board member has received your email and will consider your points as we move forward with the discussion on this proposal.

Best,

Pam Fuehrer
Vice President
Scarsdale Board of Education

Dear Scott and Pam,

I wholeheartedly support permanent light installation at Butler field and a curfew of 8 or 9pm on weekdays. This field is the only turf field that Scarsdale has and it gets a lot of use, including into the evenings. I live on Burgess Rd near the HS and do NOT find noise to be a problem in the neighborhood during games.

I would also support the creation of another turf field in Scarsdale, maybe near the pool complex, so that more games can be played in inclement weather.

Thank you, Aggy Shawn
