As a 20 year scarsdale resident - I am outraged that the school district - which has the highest per student cost in the country cannot figure out a way to issue a warrant for us to prepay our 2018 school tax on an estimated basis. Which by the way would give the town a windfall of interest income on our money.

The same school district that fears its union more than it respects its students should be ashamed of itself.

Let's just sit back and watch our home prices drop another ten percent.

Alan Annex.
