Subject: Phone Comments from an anonymous resident commuter

- We should be considering daily flex-pass permits at Christie and Freightway to accommodate folks commuting part-time and wanting to park in places like Christie. Proposes \$400 per “day”, so folks commuting 3 days per week pay \$1,200, 4 days for \$1,600, rather than 5 days for \$1,700. We can facilitate through downloading the daily LPR reads and keeping track of folks until someone exceeds the number of allowed parking sessions.
- Oppose Merchant Lot move and having non-residents park in Christie Place lot: we don’t know what situation will be like in 3-6 months, and residents would hate being bumped to Freightway because spaces in Christie have been filled up.
- Instead of incentivizing merchants to park in merchant lots, we should be doing more about meter feeding in the Village Center. We also should find a way to note all merchant/employee vehicles and ticket them for parking in metered spaces.
