Subject: Regarding Article

Dear Mr. Mayor and the Board of Trustees, When I appeared at the Board meeting to learn how Mr Ryan came to asses our properties ,he could not produce the essential mathematical model to justify his evaluations As I said to the Mayor, the Board and the assessor., the errors made in the first assessment I could point to and therefore were rectified. Others pointed out the faults and inconsistencies in Ryan's Reval. Nevertheless, the Ryan Evaluation was accepted and passed.Thus an Article 78.

In the "Scarsdale Inquirer" on Friday ,the Scarsdale Assessor stated that the Ryan reevaluation was"a big mistake". Why can't the Mayor and the Board do the same and put an end to this sad travesty.

Sincerely yours,
Barbara Wabeck
