Subject: Tree Code Amendments

I am writing in support of the Tree Code amendments. The proposed amendments to the Tree Code are an important step in protecting our tree canopy. We all know the vital role trees play in maintaining a healthy environment. Directing our residents to plant the right type and number of replacement trees is integral to assuring that our tree canopy is not only maintained but also enhanced.

As someone who grew up in Scarsdale and has lived here for 64 years I would hate to see our beautiful village lose one of its greatest assets.

Thanks so much.
