**Subject:** support for increased recycling pickup

Dear Mayor,

I am writing in support of the Conservation Advisory Council's recommendations for weekly recycling pickup in Scarsdale. My family accumulates massive amounts of cardboard and other recycling. Particularly after a party my recycling bin is overflowing with bottles and cans, and depending on the timing I sometimes have to wait 10 days or more to have it picked up. In the meantime, I end up throwing out recyclable items just to cut down on the amount of recycling I have sitting around my house and garage. At the same time, I sometimes only have 1 or 2 bags of garbage to put out for the twice-weekly trash pickup. Weekly recycling would bring us in line with most other towns in the area, and we would really appreciate it.

Thank you!
