Hi Stephen and Mayor,

I am Kevin's dad. Thank you so much for your clarifications. Based on my observation, the traffic on Madison Rd is much heavier than Sprague Rd. When we moved to Scarsdale three years ago, there is no stop sign on Lotus Ave but there is a stop sign on Madison Rd. Last year, a stop sign was installed on Lotus Ave. So now, on Madison's intersection with Blvd and Lotus, it is four-way stop sign. Eastchester Village realized the need to install a stop sign on Lotus Ave. They did the right thing. Even Blvd has a stop sign at its intersection with Madison. I do not understand why we cannot install a stop sign on Sprague Rd at its intersection with Madison. My two boys and a few other students from Madison start to walk to school sometimes, but I am very concerned about their safety when crossing the Sprague. Every year, we saw car accidents in the intersection between Sprague and Madison. Please seriously consider to install a stop sign on Sprague Rd. Thank you for your attention to our children's safety concerns.

Thanks,
David

Mr. Han,

Thank you for your email and concern for traffic safety in the Arthur Manor neighborhood. Please be advised that Sprague Road is classified as a “collector” road in our highway classification system, intended to move traffic from residential streets to arterial roadways, while providing access to residences throughout the Village. As such, traffic volumes are heavier, requiring traffic to move quicker on Sprague than the intersection streets such as Madison. The intersecting streets are classified as “residential” and all have stop signs yielding traffic to the collector road, Sprague in this case, which is a provision in the Federal Highway Manual for traffic safety guidelines at these “T” intersections. There are exceptions whereby stop signs currently exist on Sprague, specifically at Clarence and Nelson Roads. The Village employs a Traffic Safety Committee to investigate suggestions from residents for regulatory signs and I will ask that they review your request. They will review exiting data for accidents, traffic volumes and visibility at the intersection of Sprague and Madison. Once the Committee has reviewed we will reply with a formal determination.

Thanks again and if you wish to discuss in the interim, please contact Assistant to the Village Manager, Josh Ringel, at 722-1109 or via email at jringel@scarsdale.com.

Sincerely,

Stephen M. Pappalardo

Village Manger

Subject: Petition of Installing A Stop Sign

Dear Mayor and Clerk,

We think the Village of Scarsdale should place a stop sign at the place where Sprague Rd and Madison Rd intercept on Sprague road. The first reason why you should add a stop sign is because Madison Rd is a busy road so Madison Rd shouldn't be the one having so much stop signs, but instead, it almost has a stop sign at every interception. Sprague Rd is less busy, so Sprague road should have more stop signs but it doesn't. The second reason is that it could be safer for the children, some second and third graders already walk home by themselves. There's always chance that the driver doesn't see you and crashes into you. Then, you can die or get seriously injured. The third reason is because there are going to be less car accidents. Also you don't need to wait a long time to cross the street. Lots of accidents happened there too. A lot of my friends live on

Madison Rd and we think it's not safe, so does the parents. We hope you will accept our suggestion and

please respond as quick as possible. Thank you!

Yours Sincerely,

Kevin Han (5th grader)
Wade Han (4th grader)

@137 Madison Rd
