Subject: Sanitation Services

Dear Mr Mayor,

I am writing to let you know that I am not in favor of the proposal to change to our sanitation services. I like having things picked up at the back of the driveway and would not support the proposed change to curbside pick-up. Even with the curbside recycling now, the neighborhood gets messy on windy days when newspapers get strewn about. Switching to all services at curbside will create a real mess, especially if people put their garbage out the night before and it attracts animals.

Respectfully submitted,

Dick Schapiro
