Subject: Pickleball!

CAUTION: External sender.

Dear Mayor Veron, Trustees and Village Administration,

I am now in my second round of pickleball clinics sponsored by Scarsdale Parks & Recreation at Lake Isle in Eastchester. The Scarsdale residents with whom I play range in age from their 30s into their late 60s -- and everyone has a great time. The game is fast, fun, easily learned and more accessible than tennis for those with various joint issues. Everyone on the courts is enthusiastic about the game.

It would be wonderful if we had our own pickleball courts in Scarsdale, particularly if they were usable year-round as is the case with the Lake Isle courts. I think six courts would be adequate if people could sign up for them in advance. Please consider making pickleball courts part of the active Scarsdale sports scene. I feel confident that the courts would be well-used by our residents.

Many thanks,
Susan
