Subject: Police /Fire Headquarters: Technical Comments Report May 1999 1 of 4
Importance: High

CAUTION: External sender.

To the Scarsdale Clerk and Scarsdale Village Manager:

I have already sent this report to Mayor Veron.

I found out only yesterday that the Village is considering turning the Police/Fire Headquarters into a cell antenna site.

Back in the late 1990s, the site was also considered and I spent several years working on this issue.

I pulled out this technical report from my old files. It was submitted to the Village and though years have passed, much of what is in the report is still relevant as many of the same issues are in play today.

I will be emailing it in 4 separate parts.

Thank you.

Carrie Fishman
