Subject: Rippy Phillips field at crossway

CAUTION: External sender.

Rippy Phillips was instrumental in the resurrection and strength of the Scarsdale football program. My son joined the Scarsdale Youth Football program in first grade, and it was an important part of his 12 years in the Scarsdale school system. Rippy was supportive of the program from the flag football program for first and second grade through the middle school years. We could always count on seeing Rippy at nearly every game. And as I pack up my house, one of the few mementos my son is keeping is his trophy from their undefeated season in the 5th grade.

Because of Rippy's support of this program for elementary and middle school students, the boys (and a few girls) had the training and skills to join the Scarsdale High School freshman football program and subsequently the JV and varsity teams.

I think it is fitting that the village recognize Rippy Phillips' contribution to the Scarsdale football program by naming the Crossway Field in his honor.
