Message to Manager: Steve Pappalardo, Head of Sanitation Benny Salanitro, and to the Village Board of Trustees:

I attended last evening's meeting regarding the proposed recommendations by the CAC with respect to waste pick-up and wish to send you our opinion.

We disapprove of a possible change to a weekly pick-up of garbage and to trash bins at curbside.

A weekly waste pick-up would not be a good idea.

As far as the suggestion of the commingled bins and kitchen waste bins put at curbside, we totally disapprove.

Let's keep our Village streets from looking ugly with bins in every driveway/curb, in many instances they are there all day. These bins/trash cans roll into the streets.

In addition, let's not cut our municipal services. All's well as it is now with twice a week waste pick-up and every other week for newspaper collection and commingled.

Yes, we are 100% in favor of sorting waste, etc...but, please do not copy neighboring communities. As I drive through White Plains for example and witness the ugly visual

mess of garbage bins and other bins all along many streets, I do not think that it is a model for us.

Our substantial local taxes and other expenses have so far given us fine services which we hope you'll maintain.

Thank you for your consideration.
