Subject: Timely question from long term resident

Mayor Hochvert,

Like many residents, we have been in touch with the Treasurer about prepaying our property taxes, or some other local taxes, given the new tax bill.

You should know that Gale Friedland has been wonderfully responsive despite (I am sure) being inundated with questions.

I am emailing you to tell you that we seem to be less energetic than other nearby communities. Rye, for example, has figured out a way to help its residents. See the attached note to their residents. I don't know if we could do something similar, but it would be smart to at least have a communication from you that we are trying, with how we can stay updated.
