Subject: FW: Saxon Woods Road

Hello, Mr. Frankel.

This message is being sent on Mayor Mark's behalf reference your Saxon Woods Road observations related in the email captioned below.

Please note that Saxon Woods is on our 2016 resurfacing list and we anticipate the necessary work being completed this season, most likely in the fall. As added background, Con Edison is working on a large main replacement in the area. Following completion of their work, our milling and paving work will take place. As an added benefit of coordinating with ConEd, we anticipate that there will be some measure of cost sharing to reduce our overall paving costs.

Respectfully,

Robert Cole

Subject: Saxon Woods Road

Mayor Mark:

I would invite you, your fellow trustees, and members of the Highway Dept. to drive Saxon Woods Road from the its intersection with Boulder Brook to the White Plains border. I'd then respectfully ask when we might expect that segment of road to be milled and repaved.

Thanks.

Josh Frankel
