Subject: waste pick up changes

I am writing in support of the proposal to increase the pick up of commingled recycling and to add curbside pick up of food waste. We generate 1-2 bags of household waste a week - in addition to 2 bins of glass/plastic, a couple of trips to drop off food scraps and 2 bins plus of paper/cardboard. We do not need a twice weekly garbage collection and would find it extremely helpful to have more frequent recycles pick ups, as well as curbside food waste collection.
