Subject: Concerned homeowner

Hello,

Honorable Mayor and the BOT, please provide me with some updated information on where we stand on the Article 78 proceeding. I watched the public board meeting on TV (January 24th) and, to be honest, it felt more like a criminal case with defendants protecting themselves instead of public officials that represent the people of Scarsdale. Too much silence came from you and the elected officials.

I know it is not necessary for all the silence, because this is not a criminal case, I hope.

It would be nice to receive some answers on your possible resolutions to this drive-by evaluation, that in reality feels more like an actual "drive-by".

I've done my very best as a parent to grant my children a chance at growing up here in Scarsdale. It took a lot of hard work, and some luck here-and-there. My two kids are fortunate enough to have bright futures ahead of them, and I would like to think Scarsdale had something to do with it.

Thanks,
Karl Thomas
Resident of Scarsdale
