Subject: Recycling

Dear Mayor Dan:

I am writing to express my support for the CAC's proposals regarding recycling as well as the furniture donation container.

As a matter of record I have always, and continue to, bring my recyclables to the curb for biweekly pickup and for those for whom once a week is too much, they can always just do it as usual twice a month or less.

Although I do not collect food scraps myself, I see the value for those who do and do not see any downside to collecting them at curbside.

To those who worry about messiness at the curb I would say that when it's a windy day I often see newspapers blowing around but never see cans, bottles or plastic containers, particularly if they are safely ensconced in their recycling containers.

The one suggestion I have is that these recycling containers be made available again to any resident, such as myself, who could use a new one!

I know any change is a hard sell but hope that you and the board will be amenable to trying out a new way of doing things, as many surrounding municipalities already have.

My best wishes,

Kay Eisenman
