Subject: Please do not allow cannabis dispensaries in our community

CAUTION: External sender.

Dear Mayor Vernon,

I have spent most of my life living in Scarsdale. I truly believe it is a privilege to live in this community. The people that live and work in our community always choose to put the kids and the residents of Scarsdale first. Permitting any cannabis dispensaries/lounges would be doing the exact opposite. Aside from the tax revenue, there is absolutely no benefit to allow such a place in the Village of Scarsdale. The negatives include allowing easy access for our youth to obtain and use marijuana. We are also inviting youths/people from surrounding towns to purchase their marijuana here. Then after using marijuana we let them drive in our community? We put all at unnecessary risk. Please do not allow this to happen.

Thank you

Linda Kermanshahchi
