Ms. Levi. Thanks so much for taking the time to write. We care deeply for Scarsdale and appreciate hearing from residents. Public input is vital to good process. I am copying the full board to keep them apprised.

All the best, Jane

CAUTION: External sender.

Dear Mayor and Village Board of Trustees,

I am sure you are as concerned as I am with the deterioration of our neighborhoods.

Who will have the courage to stand up to this abuse ? This has been going on for far too long. Shuffling papers is not governing.

I am no longer proud to be a resident in a Village with no regard to environmental or architectural concerns. What has been passed down to us is now being ruined in your watch.

Maybe you are proud.

Ingrid and Michael,

I am very upset at the proposed new constructions on Overhill Road. After Circle Road double insult this is yet another slap in the face.

The Village government is doing nothing to preserve our Village. All mechanisms exist, but all is being ignored, side stepped for more money, less environmental or architectural concerns.

If you look carefully at the picture below, you will see two rabbits trying to find refuge this morning in my backyard. This is within two steps of my back door. There is simply nowhere to go for these creatures, but there is no end to human greed.

I had started a web site for this purpose over nine years ago or on April of 2013 that I had temporarily suspended. It is now live again for you to see it all - once again: Save-Scarsdale.org.

Is this Planning or Board of Architectural Review or the Village Board doing what it is supposed to do ?

With hopeful wishes,

Lika
Lockwood Road

Be good.
Do better.

Do not waste.

Only dust gathers by itself.

Equal rights is not enough. Women need better rights.

Do what is right.

Be nice. It spreads.

Reduce, reuse, recycle.

Live free or die. NH-USA License Plates.

Dear Neighbors,

1) Several people have complained recently about dog waste on their properties - please pick up after your pooches! The waste bags should go in your garbage bin (not left on streets or leaf collection bags). We'll also ask the neighborhood associations adjacent to ours to pass the message along to their members.

2) A reminder from the Village that gas-powered leaf blowers are prohibited in the Village from January 1 through September 30 - electric leaf blowers are authorized year-round.

Thank you very much - and enjoy the warmer weather this week!

Best,

Ingrid & Michael
