Subject: From Scarsdale Resients.... about Marijuana in Town

CAUTION: External sender.

Because there is so much about Marijuana that we still do not know...so many affects that can vary...and that can impact young people without their awareness...and older people as well...

and since the amounts and quality of ingredients in 21st Century marijuana in all forms varies so greatly...and are Very Different from the marijuana of the 20th century..

we vote NO on allowing the Village of Scarsdale to have dispensaries for Marijuana products...
