

Mayor, Board of Trustees and Treasurer,

I am outlining below a way to acquire more land.

Currently the Village has acquired 32 Ferncliff, and will be auctioning it soon. It is almost a double lot.

Instead of selling that piece to a developer possibly, the Village should raze the house and make it a wildlife sanctuary, wildflower garden, etc. It is an area that has endured new, big buildings totally unnecessary. Even if you keep the house, there is still a nice garden there. I would not mind if the house came down there to make way for moire green space.

This is a perfect opportunity for you to cease upon after wasting so much taxpayer money.

Last case: the Village we learned last night has spent \$ 12,000 on the Ryan litigation, Mayra's petition totaled \$55,000 from 150 residents and so much time and aggravation on FOIL's etc. Totally unnecessary.

I do not think we need to hire the firm that made a presentation last night either. I will write about that in a separate e-mail.

Below is my correspondence on the same subject.
