Subject: Grass Clippings

Mayor & Trustees

Please do not change the law for grass clippings.

There is little economic reason to change the law. You are not reducing staff and curbside pickup for other similar waste will continue.

The burden placed on regular homeowners on fixed budgets who do not have a landscaper or funds to convert or buy new lawnmower to comply is burdensome.

This program should be voluntary program for those who want to support it.

Thanks,

Lou Mancini
