**Subject:** Vaping Limitation

I am writing to express my support of limitations and even banning the sale of vaping products in Scarsdale. There is no place for these dangerous products in a beautiful town like ours. Scarsdale prides itself on its tremendous resources for raising children to be well-educated, healthy, thriving young adults. There is no need to make potentially detrimental products easily accessible. Please consider banning or limiting the sale of and access to these products. The companies target young people and the substances are extremely addictive.

Thank you.  
Mary Leptak
