Subject: Trees

Hello,

The Definitions section of the new tree proposal now defines "hazardous tree", and it does this by referring to the "ISA (International Society of Arboriculture) Risk Assessment Manual." I cannot find this manual on the internet unless I want to pay \$69.95 to the ISA.

<https://www.isa-arbor.com/store/product/442/>

They link to forms, but the forms do not explain the standards.

So, can you please post the manual or at least the relevant pages that are being used to define hazardous tree? I understand you may be busy today, so I am not expecting this before today's meeting, but can it be done in advance of the hearing?

Thanks ,

Mike Levine
