Subject: Compost pick-up

Dear Mr. Mayor,

I am thrilled that Scarsdale is composting! It would be most welcome if the composting were picked up at my house because I find I'm not going as often as I should to the recycling center to drop it off. When I first started, I was excited to go bring in my composting, but, well, the excitement has worn off. I still do it, but not as diligently.

I am also fine with bringing out the co-mingled recyclables and newspapers to the end of the driveway (I do it anyway,) but of course I understand that not everyone wants to do that.

Many thanks for all you do for Scarsdale.

Nicky Ungar
