Subject: Tuesday March 10

CAUTION: External sender.

Thank you for the Open Letter to the Chinese Community posted on the Scarsdale government web site. I think it truly captures the sentiment of most Scarsdale residents. We have made many friends from all over the world who have come to Scarsdale for the same reasons we came here 24 years ago. Scarsdale may have problems, but living together with individuals of many nationalities and faiths is not one of them.
