Subject: Food scrap pick up

Dear Mayor,
Greetings,

I am writing to request that Scarsdale move ahead with picking up food scrap bins with our weekly garbage pick up. I truly believe that if the village wants to encourage sustainable practice of recycling and composting, it is crucial that it is made easy and convenient for the public.

Food scrap/ composting program started in Scarsdale last year was the best thing we have accomplished in the sustainability committee. Moving here from California, I was surprised that the village of Scarsdale did not have weekly recycling (still doesn't) and food scrap program. But, we have made slow progress and achieved quite few changes in last 2 years, thanks to some very hard and dedicated workers on the sustainable committee!

As a working professional, I find it very inconvenient to do weekly drops of food scraps and often miss the timing window on weekend drops. Plus, with winter approaching it will only get harder.

I am hoping the village will vote on picking food scraps weekly with our garbage collection to encourage a wider participation of the community to achieve a green and Sustainable Scarsdale.

Thanks for your consideration.

Sincerely,
Renu and Anil Lalwani
46 Greenacres Ave
