

Rec'd East Aechoute
neighborhood Ass'n meeting

6/13/16

One problem that plagues Innes Rad residents every school day are the mothers who pick up their children by the rear entrance.

1. Many of them are so totally inconsiderate and entitled that they will literally block the road entirely. They make it impossible for school buses to get the driveway, which further blocks the road and, heaven forbid that an emergency vehicle had to pass by - no ambulance or fire truck would fit.
2. They not only enter Innes Road from both directions sometimes blocking incoming traffic all the way down to Palmer Avenue, they also ignore the no parking signs, sometimes park the wrong way on the street, block driveways, etc.
3. Also in violation of the law, they leave their engines idling for the entire time they are there - often over 20 minutes.
4. The school administration is either willfully blind to this situation or does not feel any obligation to take steps to improve it.

OK, so what is the bottom line here? It might be very helpful if the Mayor along with the Police Department along with the school administrators along with parents along with neighborhood residents could have a meeting to address the problem and possibly come up with some ways to help alleviate it.

We should not simply continue to ignore what is dangerous, illegal, and inconsiderate activity, just because it has been ignored in the past and just because it only affects those living on Innes Road.
