### Parking comments:

For seniors or other commuters who use Metro North during the week to travel to NYC it is difficult to find parking along Scarsdale Avenue, not due to availability but due to the 11:00 AM limit on available spaces. There are many spaces open, but cannot be used due to the time deadline. At this point the Metro North schedule is not running at regular times. However, when the schedule returns to regular hours, there is an off-peak train just prior to the 11:00AM deadline, that saves an hour or more for those who need access to the city. This time deadline should be changed to 10:30 or 10:45 AM at the very least to open the available spaces.
