Subject: Speeding

Robert -

I called the police again this evening as I was nearly run down by a BMW convertible making the corner from Penn to Franklin. It was operated by a young man who it seems was headed toward Weaver. I can only assume he was cutting through from crossway. It has been eight months since you appeared at our neighborhood meeting and not a single thing has happened. Is this really the level of importance that our village places on the safety of its citizens? I continue to hear from residents that this lack of action is nothing more than they expected. Such a sad thing to hear and so unnecessary.
