Subject: Freightway Garage Problems

Hi Jon - I park every day at the Freightway Garage and not only is the garage an eyesore from the outside, it's also falling apart on the inside

The ceiling is peeling in several places (even though this was supposedly fixed a few years ago) exposing rust - and when it rains, the water drips and can cause rust spots on cars. Also, recently, some concrete on the steps broke off - so some stairs have a chunk of concrete missing, which is dangerous.

As you probably know, the annual parking permit fee was raised this year, so it's now \$1,000 to park there - I'm not sure where the money that's collected is being allocated.

I'd appreciate if you could have the appropriate people look into this and make suggestions as to how this situation can be rectified

thanks
