Subject: Scarsdale Conservation Advisory Council

Dear Mayor,

I am writing to ask you to please approve all recommendations in the report submitted by the Scarsdale Conservation Advisory Council.

My family and I are strong advocates of recycling. We were so happy when Food Scrap Recycling was added to the Scarsdale program. We love not having to put our scraps in the garbage and also knowing it is going to the wonderful purpose of making compost and helping our Earth.

I hope that you will implement weekly pick up of food scraps at curbside. My husband and I both work and we also have small children. We are committed to the program but it can be difficult to make it to the Recycling Center sometimes. Weekly home pickup would be wonderful. I also think that many more people would participate if there was home pickup.

We would also love weekly pickup of recyclables. We have so much recycling and it is a lot to store for the current every other week pickup. Weekly recycling pickup would be much more convenient and a huge benefit to the community. Plus we are already taking our paper out to the curb so bringing commingled as well would be inconsequential and greatly worth it.

Thank you for considering these changes and increases to our town services. We truly hope that they are put into effect as soon as possible!

Sincerely,

Saskia Sorrosa
Dickel Rd.
