

Hello Marc,

And thank you for yours. Don't know if any of the noise I made yesterday helped get the Governor to act. But I'm glad he did. We Scarsdale residents are safer because of his action.

> Thank you for your email. The Village may not postpone or otherwise cancel an election. As you may know, the Governor took action to postpone the Village election scheduled to take place on March 18th. The Village has been in communication with the Governor's office about the election for over a week. Cancelling an open and free election is not taken lightly by any governmental body. The Village has been and remains focused on the healthy and safety of Village residents.

> Think of the safety of the community you lead and postpone the election. Last week you had to apologize for being asleep at the switch when a group of residents was insulted. Don't put yourself in a position where you have people's lives on your hands because of indecision. Think of the safety of hundreds of people and take a bold action. The White House is now saying no groups larger than 10 people. Primary elections around the country are being postponed. Certainly a relatively inconsequential event like the Scarsdale Village election should take similar step. Postpone it.
