Subject: Increase Recycling Pick Up

Dear Mayor:

As a new resident to Scarsdale, one that takes prides in being green, I was surprised that the town only picks up recycling once every 2 weeks. Most packaging is now recyclable but having everything pile up in your garage while waiting for recycling day makes me frustrated with the process. I would generate much less trash if I could recycle more. And having recycling picked up more often would give my family members and me an incentive to do that.

Thanks,
Shilpi Chandra
