Subject: Sanitation recommendations

Dear Mayor Hochvert-

I read the Scarsdale Conservation Advisory Council study of the Scarsdale Sanitation Dept and would like to express my strong support for all of the recommendations in it, and primarily the recommendation for weekly home/curbside pick up of food scraps.

I have been participating in the food scrap program since the beginning and I'm at the recycling center twice a week with scraps. It has greatly reduced the amount of regular garbage that my household produces.

I have many friends who would like to participate in the food scrap program but, because of their work schedules, they find it difficult to make it to the recycling center on a regular basis.

Best,  
Stephanie Golden
