Mayor Hochvert,

I appreciate the work the CAC put in to their Sanitation Study but I do not support the proposal of changing commingled pickup from bi-weekly at the house, to weekly curbside. I think we should either leave the pickup schedule as-is, or consider a third option: weekly at the house pickup, which, based on information presented in the meeting last night, would add approximately 250k to the sanitation budget (avg under \$50/house/yr).

Thanks,

Steve Pass
