Hi Ms. Stix. Thank you so much for taking the time to write to share your perspective. We benefit enormously from community input. I am copying Village Manager Richards to ensure your comments are included in the compendium circulated to the full board. With appreciation, Jane

CAUTION: External sender.

After observing dispensaries in Great Barrington and Lee, Massachusetts I am in favor of having one in Scarsdale.

First, customers there vary in age, in about equal numbers, from elderly to younger, as I imagine local customers would vary in age.

Customers there are completely orderly, requiring no police protection. Dispensaries would attract shoppers to other stores in the Village as well as generating additional sales tax revenue.

In fact a local dispensary would be a convenience to the many older people who rely on marijuana for pain relief.

Sincerely, Carol Stix
