To: Mayor <mayor@scarsdale.com>; Clerk's Department <clerk@scarsdale.com>; Robert Cole <rcole@scarsdale.com>

CAUTION: External sender.

To the Mayor..Manager,.and Trustees..

Regarding the issue of Mobility and Traffic Safety in the Village that you are now considering.....

I hope that you have all driven on Fenimore Road past the Brewster Road intersection to see how the Pedestrian Crosswalk set-up there is a recipe for disaster....

To assume that Cars will actually STOP for a Pedestrian at that point during most of the day is not realistic. Fenimore Road is a busy fast paced thoroughfare to Hartsdale and Central Avenue and most people driving along there would Never imagine that a Pedestrian Crosswalk would be situated somewhere along its length...

A better solution would be a Traffic Light that remains Green but is Activated to turn Red by a Button that a Pedestrian would push...It would probably require state involvement as most things do..but the Crosswalk that exists now is really not a good idea...

It is Very Scarey to try to cross there...with traffic coming from both directions...Dangerous without question...

Drive by and see what I mean..

Thanks very much.

Susan Levine
