Subject: About Leaf Collection and Few Residents Mulch Mowing...From Resident Susan Levine

CAUTION: External sender.

Hello to the Mayor ...Manager...and Board of Trustees...

I regret that we are still not winning the Mulch Mowing battle..and Landscapers and Gardeners in town are Not encouraging their clients regarding Mulch Mowing the Fall Leaves.

The huge leaf piles all over town are testament to that. Pickup only once a month only allows those piles to grow and become hazardous on the roads.

I am still the only one on my block whose gardener Mulch Mows my leaves despite trying to get my neighbors to do the same.

Ironically..many gardeners now own Mulching Trucks that pick up leaves like our Leaf Trucks do..but they will Not use them in Scarsdale. (I have asked) They say Scarsdale picks up their leaves. They use the trucks in New Rochelle and Larchmont.

I wish Mulch Mowing had become common in the Village and people had seen how wonderfully well it works. I am disappointed that it has not.

Susan Levine
