Subject: From Resident Susan Levine...about Mower Mulching

Dear Mayor and Trustees..

I am writing to express my support for Mower Mulching in Scarsdale..allowing grass clippings to remain on lawns...both as good nutrients for the lawn and to save work for gardeners and the Village with bagging and bag pickup.

My new gardener has agreed to Mower Mulching.. and also to Leaf Mulching in the Fall..which is also good for my lawn and saves work for Village.

My old gardener refused to do either one.

I think It is now time for Scarsdale to require both.

Sincerely,

Susan Levine
Ardmore Road
