**Subject:** To The Board of Trustees...From Resident Susan Levine.....About The Area on Palmer Avenue in Front of the HeathCote School...

Hello and Board of Trustees...

A question for all of you..please...

What would need to happen in order for the area on Palmer Avenue...from Innes Road to Lincoln Road...the area in front on the Heathcote School... be remedied so that it is not always a Muddy mess..

Cars and Trucks seem to drive up into the grassy areas along the Sidewalk in front of the school and continually ruin it...and it never gets repaired...so it remains an eyesore..as well as a hazard for those walking on the sidewalk near it...

Would it be Possible to Pave the Area..Blacktop that area... next to the Roadway... in order to protect the Sidewalk...and end the problem permanently of Muddy Destruction during rain and snow ?

Have you ever driven by that area...to see what I mean.? It is a mess right now..and is never anything other than an eyesore...I think it may be time for a permanent remedy...

Neighbors further up Palmer Avenue have placed huge Boulders on the Grassy Areas in front of their homes to keep vehicles from driving on them...ruining them... and doing what they have done to the areas along the front of the Heathcote school...from Innes to Lincoln... It really is an embarrassment...in front of one of our wonderful Elementary Schools...

Please drive by and see how bad that area looks...how messy it is.. ..how it remains that way...and that it needs a permanent fix...

With my thanks....  
Susan Levine  
Ardmore Road
