To: Clerk's Department <clerk@scarsdale.com>; Mayor <mayor@scarsdale.com>; Public Works <publicworks@scarsdale.com>

CAUTION: External sender.

Hello Mayor ...Board of Trustees... and the Public Works Department..

I am hopeful that Scarsdale will get some of the Infrastructure Money that New York State will Receive and Distribute to towns and villages..... and that we can Use it For Repairing Our Roads.

I took a walk today in the East Heathcote area.. bordering Heathcote and Quaker Ridge.. Perhaps you might do the same..when you have time. You would not be happy with what you see.

From Crossway and Hillview to Harvest...to Westview to Crest Lane onto Heathcote Road..back across Crossway..then further along Heathcote to McDonald Place..and then Wakefield...

I was concerned at the condition of most of those streets...the areas along the Curbs especially..with lots of Asphalt pieces everywhere...lots of unsightly junk and Debris... and Crest Lane in particular was a Nightmare...as if paving had started and was never completed...The road was totally rough...Unacceptable..

With almost No Snow..the Street Sweeper Vehicless should be working regularly...But it was obvious they had not been on those streets..

Hoping you can put this Area on the List of Places to be Repaved..Restored.. or Repaired when Spring comes...

Thanks very much for listening...

Susan Levine
Ardmore Road
