Subject: New Sanitation Proposal

Dear Mayor,

I am writing to voice my strong opposition to the new sanitation proposal. With all due respect, I believe it is a shortsighted and ill conceived proposal. First, we have a substantial number of elderly residents in Scarsdale. Forcing them to relocate a large container to the street corner for collection is unwise. An elderly person could get injured, hurt themselves or have difficulty doing so.

Second, it is unsightly. Scarsdale is a beautiful community. I don't look forward to seeing recyclable containers lining our streets. We live here for a reason.

Third, with winds or inclement weather, recycles will be strewn all over the streets. Who is going to pick up the mess?

I could go on but suspect you have heard all of this already. Please note that we are firmly opposed to this proposal and urge that it be rejected promptly. It is not in the best long-term interest of our community, nor is it fair to a large segment of the aging population.

I implore Village government to do the right thing and reject it soundly and promptly.
