

Dear Village Clerk - I am writing to let you know that I am very pleased with the new lights that have been installed on some village streets. They are much brighter and more effective than the older lights. I support installation of the new lights to replace the existing ones.

Similarly, I would like to request that the brighter lights be placed on Crossway as well as on my own street, Ardmore Road. There is insufficient lighting on both of those streets.

Kind regards,

Susan Portes
