Dear Ms. Farahmand,

On behalf of the Board, thank you for sending us your email regarding payment of the second installment of the school tax. I understand that you properly followed the instructions noted on the invoice, however I do not have an answer to your question. I have copied Scarsdale's Village Manager and Mayor Samwick, and the District's Asst. Superintendent for Business and Facilities on this response, as one of them may provide further clarity.

Best,

Pam Fuehrer
President
Scarsdale Board of Education

Good Evening - My name is Debbie Farahmand and I am a Village resident and tax payer. I, along with hundreds of other Scarsdale families, simply forgot to pay the second installment of the School tax and I am now being hit with a four figure penalty, which I simply find to be egregious and in bad faith. The back of the tax invoice states that all questions regarding the tax should be directed to the Board of Education. My question is, who determined that a 10% penalty is equitable and what is the Village planning to do with the, at minimum, hundreds of thousands of dollars that I imagine will be collected as a result of this penalty?

I look forward to your reply.
