**Subject:** Re: LIBRARY VOTE/Please share with all BOT and staff.

Hi Jon,

Thank you for your email.

We watched the entire BOT meeting last night on the local TV channel.

Sorry that the big library budget won, but we respect the various reasons of the Trustees votes.

What troubles us most, is the closing of our public library for two years plus.

And a likely cost over run is also a serious concern too. No construction project in our Village has ever been completed within budget.

Will the private donors share with the Village's cost over run? At the present ratio? The burden should not on the taxpayers.

Please address this later question. This issue should have been included in the Village's resolution.

Our other major concern regarding the closing of the library is the laying off of library staff. We would like to see that no one is laid off.

Sincerely yours,

The Macklers  
5 Lenox Place
